The International Dental Law and Ethics Congress will be held in Firenze from October 20 to 22, 2005 on a contemporary and internationally significant topic, "Conflict of interests". Such conflicts will be examined from different international perspectives.

Potential conflicts will be assessed in the relationship between the care givers and patients, among dental professionals and institutions, as well as those that arise in dental education and research.

The congress will foster discussions on specific issues of dental ethics and law, including professionalism, informed consent and legal liability.

These lively debates will be spearheaded by speakers from around the world, representing multiple scientific and cultural contexts.

Together with the Firenze University, ANDI and IDEALS, we are committed to the highest level of scientific discussion and cultural appreciation. Firenze is pleased to share its beauties and to welcome such important guests.
